Check Out the **RAFFLE** benefiting the UW Hospital **Start with Art** Program

The "Start with Art" program, adds a valuable dimension to the promotion of healing and wellness in patients by stimulating creativity and self-expression and by introducing a variety of hands-on exploration of art materials. The artist-in-residence program is supported by the Ira & Ineva Baldwin Wisconsin Idea Endowment, 2009-2012. Fundraising in partnership with ArtWorks:Madison will provide us an opportunity to replenish our art supplies and expand our programming.
